

A Stake in the Kingdom

Seventh son of the penurious Laird of Balfour, the fiercely ambitious David Beaton was determined to rise in the world - by whatever means available. Never one to be burdened by scruples, he cynically used the Church for his own ends to become one of the most able statesmen of his century and the real ruler of James Vs Scotland. An astute, courageous man, an accomplished fighter, fond of women, it was inevitable that Cardinal David Beaton would make many enemies. And that one day one of those embittered men would wreak a terrible revenge. The compelling 16th century story of the rise and fall of David Beaton - the Cardinal who was no saint. Set against the background of war and Reformation, this is a thrilling story from Nigel Tranter, master of Scottish History.
