

The Loveliest of Them All

About a week before the Great Flood, one concerned earthly creature notices his friends are going missing, two by two. Believed by no one else, but convinced that something treacherous is afoot, he investigates the situation we know today as the story of Noah's Ark. As the only animal historically forgotten by Noah, the real tale of what happened during those forty fateful days of rain is told by Louis, a bitter cynic with a badass Brooklyn attitude, who snuck aboard the boat to find out what was really going on-- because if there's one tale a unicorn would want to tell, it's that of their existence. And that tale is this one.
