

Mastering Math SAT / ACT Book (4) (Compilation; Books 1,2 and 3): = 318 Problems, Answers and Socratic Dialogs - Basic, Intermediate and Advanced (Mastering Math Series)

You dont score high on the SAT or ACT math portions of these standardized tests by guessing which is the right answer and which are the distractors. You score high on these tests by knowing the material; knowing how to do the math. This book contains 318 problems covering 106 Problem Types. Along with the answers for these problems each problem has a Socratic Dialog that explains how to solve the problem. The goal is not to just present you with the problems and answers, but to help you understand how to solve this Problem Type. Each Problem Type has three different problems. This permits you to practice each Problem type three times, so you can learn how to solve this Problem Type. The Problem Types presented in this volume is a compendium of the first three volumes in the Mastering Math Series and covers Problem Types from Basic, Intermediate and Complex. Each of these is covered in their own section so you can choose to follow the links from the very first problem in the book to the very last, working from the easiest problem type to the most complex, or jump around the workbook as you see fit. The 106 Problem Types presented are just a portion of the over 450 Problem Types that we present at hscetp.com, our online tool from which these problems and Socratic Dialogs were generated. In order to ensure that the student doesnt see the next problems answer the book uses internal links, so rather than turning pages you can move through all the books content using links and be protected from exposing material that would give you an answer before you have had the opportunity to do the problem. This is the a compilation of all the Problem Types from the first three books in the Mastering Math Series: SAT/ACT. If you were to purchase all three of the books the total cost would be \$4.47 by purchasing this one book, you will save \$1.48 over the purchase of all

three individually. Book 1: Basic ASIN: B014R1WR62 (\$0.99 @ Amazon) Book 2: Intermediate ASIN: B0150APFG8 (\$1.49 @ Amazon) Book 3: Advanced ASIN: B015PP2HFK (\$1.99 @ Amazon)
