

# Implementation of Network-Centric Warfare

Provides answers to some of the fundamental questions regarding network-centric warfare (NCW) as an emerging theory of war in the Information Age. Describes how the tenets and principles of NCW are providing the foundation for developing new warfighting concepts, organizations, and processes that will allow our forces to maintain a competitive advantage over potential adversaries, now and in the future. Provides an overview of the ongoing implementation of NCW in the Department of Defense (DoD).
