

Lyrics of Love: Lessons Learned

Love takes on many forms, and is learned and practiced in many ways. But one thing that is factual about love is that it is necessary in every area of our lives. We cannot be whole without giving and believing that we are worthy of receiving love. In *Lyrics of Love: Lessons Learned*, spoken word performance artist, poet and fiction author, Dawn Wisdom the Psalmist Crooks explores love from every angle; in the physical, in the mental, in the spiritual, in the community, in the universal language of artistry; in the potential of fantasy, in the reality, in the technical, in the literal, in the cerebral and in the ethereal. Her lyrics sing songs that seek to define and make sense out of this thing called love, and to discern how each layer is designed to fit perfectly together bringing prolonged and profound balance to our lives. Maybe her lyrics are debatable, but the conversation begins here.
