

FASTtrack: Pharmaceutics - Dosage Form and Design

This is a revision guide for students giving bullet points of basic information on pharmaceutics - dosage form and design. FASTtrack is a new series of indispensable study guides created especially for undergraduate pharmacy students. The content of each title focuses on what pharmacy students really need to know in order to pass exams, providing concise, bulleted information, key points, tips and an all-important self-assessment section which includes MCQs, case studies, sample essay questions and worked examples. This title follows on from the FASTtrack: Physical Pharmacy book by David Attwood and Alexander T Florence covering information on the formulation, what components are used and the dosage form. In addition, this title will complement FASTtrack: Pharmaceutics - Delivery and Targeting by Yvonne Perrie and Thomas Rades. The FASTtrack series provides the ultimate lecture notes and is a must-have for all pharmacy undergraduate students wanting to revise and test themselves for forthcoming exams. A FASTtrack website includes MCQs, sample online content and much more.
