

## Great Women in Aviation - Part 1 - Seven biographies of women who broke with convention, refused to give up, and defied the odds.

Amelia Earhart, Betty Skelton, Jerri Mock, Ruth Nichols, Patty Wagsaff, WASP, Mercury 13. One review: My only complaint is that I did not read this when I was younger! It was inspiring and would be a great book for younger girls to be exposed to. I am interested in aviation now as an adult because my husband flies. The stories of these courageous and hard working women were wonderful to read. I thank the authors for putting together a great overview of women in aviation. It was well written.
