

Excerpt from Shakespeare in Tale and Verse In retelling these tales from Shakespeare, the authors purpose is to introduce Shakespeare to the young, and to such of their elders as find the intricacies of the plots of the dramas somewhat difficult to untangle. For, although in naming the best books of the world, Shakespeare is usually mentioned after the Bible, comparatively few of the great reading public are familiarly acquainted with Shakespeares plays. The stories that constitute the main plots are given, and these are interspersed with the dramatic dialogue in such a manner as to make tale and verse interpret each other. The author has endeavored to tell the stories from Shakespeares point of view; to interpret sympathetically and truthfully the motives of the dramas and of the characters; to omit unessential details; and to select for quoting passages that are notable for strength and beauty, and those that have especial significance in revealing character.
