

## The Society

The Society are the elite those we cannot touch. With power and influence comes the liberty to break taboos and seek indulgences. This has always been human nature. The greater the deviance the greater the thrill. Unchecked and unpoliced the rich and opulent vacation at ancient Estates were horrors are acted out and anything can be gifted. What greater taboo is there than feasting on the flesh of pretty girls? Cassandra Blake is an American Princess, born into privilege. Her smarts and wits are seldom needed. Whilst vacationing at an Estate run by a secret Society she is quickly caught in the whirlpool of hedonists and finds herself bound to Gia Eros, a timeless beauty and dominatrix. Cassandra must navigate perilous situations and endure the whims of those around her, least she find herself served as the main course at a banquet.
