

## Saint with a Gun: The Unlawful American Private Eye

A penetrating analysis of the American mentality as seen through private eye fiction. Ruehlmann traces the American Detective personality back to its roots, the lawman of the Old West rather than the civilized British inspector, and explains our mans psyche in terms of the nations makeup, peculiar or perverse as it may be. Included among writers discussed are Mickey Spillane, Ross MacDonal, Donald Westlake, Dashiell Hammett and Raymond Chandler - all names who have been entertaining America for years. --- from books back cover
