

The Jungle of Dreams

The Jungle of Dreams is a collection of three poems. The poet's mind is being revealed. He is moaning and almost despairing due to the state of the African world. He seems to beckon on his listeners to observe this state of decay. It is a world built inside a jungle, having a continuum of bad leadership. He appears absolutely melancholic to see any form of brightness in a dark continent. Indeed it is an act of arrant futility to dream in a jungle.
